

QT Mega Messaging

QT Mega Messaging provides a secure platform for sending confidential documents and audio recordings. Send text and voice memos to any group of contacts simultaneously.

- Send text and email messages with a direct link to a secure inbox.
- Record and attach audio messages from your desktop and mobile phone.
- Attach PDF or Word documents along with your message.
- Ensure your confidential messages aren't freely passed around.
- View message analytics from the Admin screen.
- Manage all your contacts and create custom groups.
- Communicate with your customers easily and efficiently.
- Password protected yet easily accessible inbox.
